About this book	xi
Other Goodies Included with this Book	xii
Resources for Nikon Photographers	xiii
<i>Part I: Capture NX2</i>	2
<i>Why Capture NX2?</i>	4
<i>Introduction to Digital RAW</i>	10
<i>Setting up Your Camera</i>	18
<i>Getting Started with Capture NX2</i>	26
<i>Capture NX2 Editing Road Map</i>	42
<i>Capture NX2 Quick-Start Guide</i>	48
Open an Image File	49
Step 1: Fix White Balance	51
Step 2: Adjust Picture Controls	52
Step 3: Adjust Levels & Curves	53
Step 4: Add a Color Control Point	55
Step 5: Apply Sharpening	56
Step 6: Create a Version and Save the File	57
<i>Using the File Browser</i>	60
Basic File Navigation	61
Creating Favorites	62
Viewing EXIF Data From Images	63
Adding Keywords	64
Adding Star Ratings	65
Adding Color Labels	66
Matching Label Presets with Adobe Bridge	67
Adding Other IPTC Data	68
Creating XMP/IPTC Presets	69

Working with the Browser: Thumbnail List	71
Working with the Browser: Thumbnail Grid	72
Working with the Browser: Filtering	73
Filtering by Star Rating	74
Filtering by Color Label	75
Filtering by File type	76
Sorting Images in the File Browser	77
Comparing Multiple Images in the Browser	79
Printing a Contact Sheet	81
The Batch Dialog	83
Advanced Batching: Watched Folders	84
Batching 101: Converting NEFs to JPEGs	85
Batching 201: Copying Settings Between Files	87
Batching 301: Pasting Selected Settings From an Open File	89
<i>The Develop Section: Setting the Foundation</i>	92
The Develop Section: Overview	95
The Develop Section: Camera Settings	96
RAW Adjustments: White Balance	97
Using White Balance Presets	98
White Balance: Examples	99
Custom White Balance with a Gray Card	101
Creative White Balance: The “Golden Hour”	103
RAW Adjustments: Picture Controls	105
Checkpoint: Choosing a Picture Control Preset	107
Picture Control: Disable In-Camera Sharpening	109
Advanced Control: Quick Adjust	110
Advanced Control: Sharpening	111
Advanced Control: Contrast Fine-Tuning	113
Advanced Control: Brightness	115
Advanced Control: Saturation	117
Advanced Control: Hue Adjustment	119
Advanced Control: Monochrome Images	121
B&W: Color Filter Effects	122
Advanced: Color-Toned Images	123
Workflow Tip: Saving Picture Control Presets	125
Advanced: Creating Custom Curves	127
Transferring Picture Control Settings to Your Camera	129

Downloading Picture Controls From Your Camera	131
Disabling In-Camera Noise Reduction	133
Adjust Active D-Lighting (optional)	134
The Quick Fix Controls	135
The Exposure Compensation Slider	137
Highlight Protection	139
Shadow Protection	141
Adjusting Global Contrast: Levels & Curves	143
Levels and Curves: Examples	145
Adjusting Saturation	147
Camera Settings and Quick Fix : Summary	148
Camera & Lens Corrections	149
Color Moiré Reduction	150
Image Dust Off Tool	151
Auto Color Aberration Tool	152
Auto Red-Eye Reduction	153
Vignette Control	154
Fisheye Lens Correction	155
Develop Section: Conclusions	157
<i>The Adjust Section: Introduction to Edit Steps</i>	<i>160</i>
Edit Steps: The Concept	161
Edit Steps: An Overview	162
Creating a Global Adjustment in the Edit List	163
Adding More Edit Steps	165
Deleting Edit Steps from the Edit List	166
Resetting Adjustments	167
Changing an Edit Step	168
Advanced: Opacity Mixer	169
<i>Global Adjustments to Light and Color</i>	<i>172</i>
Using the Double Threshold Tool	173
Using the Black Control Point	175
Setting the White Point: White Control Point	177
Global Light and Color: Levels & Curves Tool	179
Basic Levels Adjustment	181
Levels & Curves: Auto Contrast	183
The Auto Levels Tool	185

The LCH Editor	187
LCH: Color Lightness	188
LCH: Saturation	189
Example: Protecting Skin Tones	190
LCH: Hue	191
Other Global Adjustments	192
<i>Local Adjustments I: Selection Tools</i>	194
Fill/Remove Tool	195
Lasso/Marquee Tools	197
Viewing Selections	199
Base Mask	200
The Selection Brush Tool	201
Gradient Tools	203
Selection Control Points	205
Duplicating Selection Control Points	207
Interactions Between Selection Tools	209
Linking Adjustments in a Single Edit Step	211
Example: Graduated ND Filter	213
Example: Burned-in Edges	215
Example: Spotlight Effect	217
Example: Dodge & Burn Tools	219
Workflow Tip: Creating a Settings File	221
<i>Local Adjustments to Light & Color: Color Control Points</i>	224
Color Control Points: Overview	225
Control Points: Adjusting Size	227
Multiple Control Points	229
Advanced: Color Control Points and the Brush	231
Duplicating Color Control Points	233
Example: Fixing a Weak Sky	235
Example: Fill Lighting	237
Advanced: The Color Picker Tool	239
<i>Other Local Adjustments</i>	242
The Auto Retouch Brush	243
Red Eye Control Points	244

<i>“Final” Touches</i>	246
Straightening Images	247
Advanced: Correcting Lens Distortion	249
The Crop Tool	251
Filter Effects Menu	253
<i>Sharpening and Noise Reduction</i>	256
The Unsharp Mask (USM) Tool	258
Capture Sharpening	259
Suggested Capture Sharpening Settings	260
Advanced: High Pass Sharpening	261
Creative Sharpening	262
Noise Reduction Techniques in Capture NX2	263
Basics of Noise Reduction	265
Advanced Noise Reduction	267
Capture Sharpening after Noise Reduction	269
<i>The Output Phase</i>	272
Resizing Images	273
Cropping and Resizing	275
Soft-Proofing	277
Output Sharpening	279
Example: Resizing for Web or Email	281
Printing in Capture NX2	283
Saving Files	285
Opening your NEFs in a Pixel Editor	287
<i>Streamlining your Editing Workflow</i>	290
Creating a Settings File from an Edit Step	291
Creating Settings Files for the Develop Section	293
Applying Settings Files	295
Example: Multi-Step Settings File	297
Managing Settings Files	299
Creating Versions	301
<i>Part II: Capture NX2 “Recipes”</i>	304
Basic Portrait Recipe	305
Portraits: Fill Lighting	307

Portraits: Whitening Teeth	308
Portraits: Softening Skin	309
Portraits: Reducing Wrinkles	311
Portraits: Sharpening Eyes	312
Basic Landscape Recipe	313
Removing Haze	315
Improving Clarity	317
Basic Wildlife Recipe	319
Basic Black and White Conversions	321
The “Ansel Adams” Look	323
Selective Black & White Effect	325
Digital Infrared Images	327
<i>Part III: Integrating Capture NX2 into Your Workflow</i>	332
Advanced Workflow: Editing NEFs in View NX	349
Emailing Photos with View NX	350
Emailing Images from Photo Mechanic	351
Extracting JPEGs from NEFs	353
Creating a Web Gallery in Photo Mechanic	355
<i>Appendix 1: Directory of Capture NX2 Tools</i>	357
<i>Appendix 2: Supplied Settings Files</i>	373
<i>Index</i>	375
